

iServer Proof of Concept (PoC) Service

Orbus Software is pleased to offer you a free two-week Proof of Concept (PoC) service. This bespoke service is designed to provide prospective customers with the opportunity to road test iServer against their organization and business requirements using their own data

When you reach the point at which you are looking to invest in iServer, there will be a number of factors to consider before making the final decision:

- 1 Compare iServer to the Competition**
Determine how iServer compares to other tools on the market, in terms of cost, functionality, ease of use, vendor support and other factors
- 2 Evaluate iServer**
Try out the software using your own data to prove that it does what we say, and test that it is genuinely easy to use.
- 3 Evaluate Orbus**
Get a feel for Orbus Software, how we operate and how we support our customers
- 4 Define Migration**
Understand the upgrade path from any legacy tool and prove you can migrate your current data
- 5 Quantify ROI**
If you need to build a business case, the PoC will enable you to quantify the potential benefits and the return on investment offered by iServer

As part of the two-week PoC Service, Orbus are pleased to provide the following:

-  | A dedicated consultant to manage your PoC from start to finish
-  | Configuration of an iServer repository specifically tailored to your requirements
-  | Set up of a remote PoC environment on a secure, hosted server or assist with the installation of iServer on your local IT infrastructure
-  | Presentation to introduce you to your PoC environment once completed
-  | Live iServer training for up to 5 people engaged in the PoC evaluation
-  | Access to iServer e-learning for the duration of your evaluation period
-  | Access to the Orbus Technical Support Team should you have an support enquiries
-  | A Mid-PoC progress call to ensure your evaluation is running smoothly
-  | A PoC follow up call to ensure the PoC evaluation has met your requirements

We are confident that our PoC service will support your needs while assuring you that iServer is the tool of choice

Hosted PoC evaluation period extensions beyond the initial free two weeks are charged at £250 per week, up to a maximum of two additional weeks. Extensions must be quoted and invoiced prior to the end of the free PoC evaluation period.

Orbus has a global reach which means we can serve and support customers in every major global region. Headquartered in London, UK, we also have regional offices in the USA, Australia and South Africa.
